- **New Zealand**: Massey University, Palmerston North; Lincoln University
- **South Korea**: Korea University, Seoul

**ANIMAL SCIENCE**: Australia: University of Western Australia; Murdoch University; University of Newcastle

**DAIRY SCIENCE**: New Zealand: Lincoln University; Massey University

**FOOD SCIENCE & NUTRITION**: Australia: multiple locations New Zealand: University of Auckland; AUT University; Massey University, Palmerston North; Lincoln University; University of Otago
1. When should I plan to study abroad?

In general, the sophomore or junior year is the best time to study abroad for CAFES majors. In planning when to go, take these into consideration:

• Pre-requisite requirements for later classes
• That some courses are only offered during certain quarters or once per year
• Some courses ie. Organic Chemistry, Physical Chemistry, Calculus I-IV

Use your flowchart and PolyPlanner to plan for studying abroad. Find out if departments plan to offer courses during certain quarters through their websites. Meet with your academic advisor early to ensure that you will be able to stay on track and graduate on time.

2. What is the first step or when can I meet with a Study Abroad Advisor?

The first step is to attend a Study Abroad 101 workshop. We offer these two times a week and the locations, times and dates can be found here:
http://www.studyabroad.calpoly.edu/getting-started/101.html

After that, you can come to the International Center to speak with a Study Abroad Advisor. We are located in Bldg 52-E32 and our drop in hours are listed here:
http://studyabroad.calpoly.edu/contact.html

3. Can I take major or support courses for my major abroad?

Make an appointment with your academic advisor for course pre-approval.
4. Who do I talk to about getting credit through study abroad?

For GE courses
Cal Poly International Center; Building 52, Room E32
8:00 a.m. – 5:00 p.m.

For pre-approved GE courses
Please visit the GE website here:
http://ge.calpoly.edu/content/ge-study-abroad

5. Is there a list of pre-approved major or support courses?
Currently it is your responsibility to find course descriptions at the university abroad before you leave, and bring those descriptions to your academic advisor for pre-approval.

6. How does study abroad credit affect my GPA?
For Cal Poly Global Programs, grades will be factored into your overall Cal Poly cumulative GPA. For programs that earn transfer credit, grades will factor into your higher education cumulative GPA. If you take major course equivalents, grades will also factor into your major GPA.

7. How long will completed courses take to show up on my DPR?
For Cal Poly Global Programs, courses will appear on your DPR just as if you were taking courses on campus. For programs that offer transfer program, it will take approximately two quarters. Keep ALL copies of approved course forms, course syllabus, unofficial transcripts, and the course catalog description.

8. Can I use credits from study abroad to satisfy pre-requisites for Cal Poly courses?
If you completed a pre-requisite abroad, you may be required to get a permission number for the course requiring the pre-requisite if it has not yet been posted to your DPR. Contact the department offering the course for a permission number to waive the pre-requisite. Note: you will be asked to provide evidence of pre-requisite course completion abroad.

SCHOLARSHIPS & FINANCIAL AID

- Meet with an advisor in the International Center to discuss financial aid and scholarship opportunities.
- Visit the Study Abroad Financing resources website here:
  http://studyabroad.calpoly.edu/financial/index.html
- Financial aid can apply, but will vary depending on which program you select.
- International Scholarships for Education in Agriculture (ISEA)
  - Supported by an endowment that provides a minimum of $500 to 20 or more selected candidates a year
  - Intended for College of Agriculture, Food, and Environmental Sciences (CAFES) students participating in study abroad, international student exchanges, international agriculture conferences, and international internship programs
  - Contact Dr. Chip Appel, Natural Resources Management for more information: cappel@calpoly.edu
